There's carnivores, omnivores, and herbivores too.

There's also decomposers, that do not tie their shoes.

I like the squirrel's fuzzy curls on its long furry tail.

I love the bears and their brown hairs, they are very nice to me.

Buzz, Buzz, a bee, a bee is exactly what I see

It's looking straight at me.

It's me, it's me as far as I can see.

I am an omnivore

Living,

Breathing,

and kind,

Well this is the end and this

is all that's on my mind.
